Electronic access to your thesis

I hereby authorise The University of Edinburgh to publish the electronic version of this thesis online via the Edinburgh Research Archive (ERA) for scholarly purposes and with proper acknowledgement of authorship. Please tick one of the following three main options:

<input type="checkbox"/>	I request that my thesis be Open Access . Theses made open access will be freely available via the internet and will be retrievable via Google and other search services.
<input type="checkbox"/>	In addition I would like my thesis to be made available to others using a Creative Commons Attribution-Non Commercial-Share Alike Licence.
<input type="checkbox"/>	I request that no access of any kind be permitted to the electronic version of this thesis for one year, commencing from date of graduation.
<input type="checkbox"/>	Access must be restricted because: <input type="checkbox"/> The thesis contains information provided in confidence (e.g. patient confidentiality). <input type="checkbox"/> Releasing the thesis would cause substantial prejudice to commercial interests (e.g. patent applications). <input type="checkbox"/> The thesis contains information about research in progress where there is an intention to publish at a later date.
After one year the thesis will be made open access via ERA. Before the thesis is released we will attempt to contact you via the email address given on the front of this form. If necessary the embargo period can be repeated.	
<input type="checkbox"/>	I have separately requested an embargo to the hard copy so the electronic copy must be restricted for the same duration
